Delivery   *5*
1) Changed were submitted to Github and a Release was created   *2.5*
2) Filled out Evaluation Form   *2.5*

Total   *25*

(*These point break downs are a guide and a shortened version of what the Specs say, they are only references to which specs they correspond to in the specs.)

Special Cases

- Any submissions with no relevant changes to the code is an automatic 0. (Submitted what was given)
- Any teams that are composed of one person will not be graded.
- If an exception renders the application unusable a 0 will be given.
- If no releases are made tagged as a final release, the master branch will be graded.
- If there is any suspicion of plagiarism the team will be interviewed by the professor and TA to corroborate the validity of the work. This could lead from a 0 of the project to an F in the class.
- Commits outside of the date of submission will not be graded.
- Any projects submitted outside the date of submission will not be graded.
